Specifications - 20 & 30 Tube

20 Tube 58/1800 System
1.4m wide x 2.0m deep
Weight : 58.6 kg

30 Tube 58/1800 System
2.0m wide x 2.0m deep
Weight : 88kg

Picture shows small display

- Manifold case: 3mm alloy manifold box
- Header pipe material: C12200 copper
- Insulation: 55mm Fiberglass
- Maximum pressure: 6bar / 85 psi
- Cold Tolerance: – 25 degrees Celsius
- Frame: Anodised Alloy (UV resistant)
- Tested to AS/NZS 2712:2007
- Efficiency rating: 90% +
- Wind zone: rated for very high wind zones
- Corrosion: Suitable for high corrosion zones
